

ProBio BTC ERBIO-BTC (BIOLOGICAL TOILET CLEANER)

Multi-purpose surface cleaner and disinfectant

Description

ProBio BTC is a strong water-based product and has been developed to remove grease, animal fat, dirt and other solid residues. If it is used in indoor areas with bad smell, it removes unwanted odor thanks to its anti-bacteria feature. It does not contain heavy metals, phenols and chlorine. It is ideal for use in sinks, toilets, sewage pipes and ducts. It also dissolves and cleans wastes such as urea and uric acid around shower bath and toilet drains. It is non-flammable and does not contain toxic chemicals.

Directions For Use/Applications & Dosage Rates General Cleaning

A mixture of 2-3% fresh water and ProBio BTC is prepared and applied to the surface to be cleaned using a spray, brush or cloth. After the application, of the product, leave it on the surface for 15-20 minutes, and then rinse with the fresh water. It can also be rinsed with water by wiping or brushing.
